

## List of participants

### ABC Consulting (Russia)

### ADM, LTD (Kiev)

"ADM" Ltd is a specialized metallurgical enterprise. The main scope of its activities is the production of aluminum alloys. "ADM" Ltd is a large metal trading company specializing in non-ferrous rolled products.

### AiroMet, LLC (Kiev)

Selling stainless plate of various grades and sizes, from warehouse in Kiev and upon request.

### Akonit-DS, Private Company (Kiev)

Wholesale and retail trade in calibrated rolled metal produced in CIS and EU.

### AKROS S.A.S. (France), Representative office in Ukraine (Donetsk)

Balers and shears for scrap metal processing. Founded in 1933

1997: 9002 ISO Certification

Over 1000 machines sold worldwide in USA , Russia , Canada , Australia , South Africa , Korea , European Union. Our customers: steelworks, recyclers, aluminium industries

### Alfa-Bank (Kiev)

Alfa-Bank (Ukraine) offers wide range of products and services for corporate and retail clients. Nowadays Alfa-Bank network includes: headquarters in Kiev, branches in Kiev, Dnepropetrovsk, Donetsk, Kharkov, Zaporozhje, Mariupol, Odessa, Lvov, Krivoy Rog, representative offices in Moscoa and Byelorussia .

### Alians-Yug, LTD (Odessa)

"Allians-Yug" is one of the biggest trading companies in Ukraine . The main activity of our company is wholesale trade. We work in the following fields: machine building and furniture fasteners; welding wire; steel and FRP gratings for flooring, stair-treads, profile; aluminum composite panels (ALUCOBOND, ALUCOBEST etc); plywood, fiberboard, wood chip board and chemicals. We offer wide range of services related to arrangement and organizing storage areas, installation of racking systems and loading equipment. We work with leading world manufactures.

### Altair-D, LLC (Dnepropetrovsk)

### Antimonopoly Committee of Ukraine (Kiev)

Antimonopoly committee is the only state institution with special status, which protects and promotes economic competition in Ukraine. The main tasks of the committee are:

1. State control over observing of competition laws, prevention, disclosure, and cessation of violations;
2. Control over concentration, concerted actions, agreed actions of entrepreneurs and price (tariff) regulation of natural monopolists;
3. Development of fair competition.

### Arcelor Commercial Central and Eastern Europe FCSE GmbH (Germany)

### Arcelor International Ukraine, Representative office (Kiev)

Rolled metal production and trade

### Arsenal, LTD (Konstantinovka, Donetsk region)

NONFERROUS METALS and ALLOYS/ PROFESSIONAL PRICES

Alloys of metals on the basis of tin, zinc, lead, copper

Import: zinc (ingots, anode, wire, powder), tin (ingots), copper (cathode, anode, hire), magnesium (ingots), nickel (anode, cathode), antimony (ingots), ferroalloys (in assortment).

Manufacture: solder of following brands: ПОС, ПОССу (ingots, anode, wire, pipes with flux), babbits alloys: with main component of tin Б-83, with main component of lead Б-16 (ingots, robs), anodes of zinc, of tin.

Services: delivery by railway and vehicle, system of expedition and logistic ( Donetsk, Dnepropetrovsk, Zaporozhye, Kiev, Nikolaev, Adessa, Kharkov, Lugansk, Simferopol, Sevastopol, Lviv).

Note: All abbreviations are given in Russian transcription/as they are written in GOCT - t.i. the state standards.

### Art Welding / Titan (Kiev)

### Artefferro Ukraine, LLC (Kiev)

Arteferro Ukraina is part of IND.I.A.SPA that qualifies as the world leader in the production of wrought iron components. Our program includes about 30.000 ready made, forged wrought iron, stainless steel and aluminium elements for gates, railings, fences etc.

**ArtElitMetal (Kiev)**

Art smithery.

**Artyomovsk Non-Ferrous Metal Processing Plant, OJSC (Artemovsk, Donetsk region)**

"Artyomovsk Non-ferrous Metals Processing Plant" – is a leading manufacturer of copper and copper alloys semis in Ukraine and CIS. We currently supply to the markets of Europe, Asia and Middle East. Our product range includes: rods, bars, tubes, pipes, sheets, strips, profiles, wires, ingots etc. produced of copper, brass, bronze and copper-nickel alloys. Also we may offer you different types of cast products.

**Austenit Import Sp.J. (Poland)****Autonavantajuvach, CJSC (Lvov)**

"Autonavantajuvach" CJSC is the only in Ukraine and the biggest in CIS producer of autoloaders. The enterprise offers a model range of technique with carrying capacity from 5 to 12.5 tons, "LEV" series; its construction was performed with usage of many automobile component parts. This is why our products can be operated in departments specializing only in maintenance of trucks. The advantages of our autoloaders are reliability and simplicity of the construction, improved ergonomics, ease and accuracy in driving, hydraulics durability, and insignificant running costs.

**AzovPromSteel, LTD (Mariupol, Donetsk region)**

AzovPromSteel, LTD offers rolled metal of Iyich iron and steel works and Azovstal industrial complex production at reasonable prices.

Our enterprise has direct contacts with leading metal producers, guarantees decency and the top speed in the supply of metal production in the wide range. Enormous attention is payed to the quality of the supplied rolled metal, that is guaranted by certificates, issued by producing plants.

**BLN Handelsberatungs and Consulting GmbH (Germany)**

BLN consulting is the only official dealer of the company Fuchs-Terex in Russia , Ukraine , Kazakhstan and Belorussia . Production program of Fuchs company covers loaders and fuel-handling machines for such industries as recycling, ports, scrap metal and wood. BLN has its own service stations, BLN's personnel works in offices located in Berlin, Saint Petersburg, Moscow, Ekaterinburg, Rostov-on-Don, Syktyvkar, Astana, Minsk, Dnepropetrovsk and Kiev.

**BNP Paribas (Suisse) SA (Switzerland)**

Average and long-term structural financing of producers and traders on the territory of Eastern Europe, CIS countries and Turkey. Projects on energy supply, aluminium, steel, cast iron, metal production, and other commodities export. Transport infrastructure projects.

**Bougie Marketing (Germany)**

Bougie Marketing provides a wide range of services for companies going to do business in Ukraine . We bring companies together with professional business partners and support all their business activities including market research, setting up companies, staff recruiting, and organizing events. We also assist Ukrainian companies looking for business contacts abroad.

As the representative of the Ukrainian trade fairs METAL-FORUM of UKRAINE and AGRO we provide exhibitors and visitors with full service, incl. planning, advertising, interpreting, travel and transport services.

**Business-Dosye, LLC (Dnepropetrovsk)**

Editorial staff of "Business- Dosye" bring out professional advertising- informational editions, 200 000 Ukrainian enterprises, 5 subscription indexes in Ukrainian catalogue.

Yearly catalogues+ CD: METAL and EQUIPMENT, BUILD, CHEMICAL INDUSTRY. FUEL, PIECE of FURNITURE, AGRIBUSINESS, FOOD and PACKING

**Business-Bridge, international industrial journal (Kharkov)****Byvalovo Machinebuilding Plant, APE (Russia)**

"Byvalovo machinebuilding plant" – producer of frame cranes – offers to perform delivery of crane equipment maximally adjusted to conditions of your enterprise. Our frame cranes have the following characteristics: lifting capacity up to 36 tons, hoisting height up to 14 meters, mispick up to 36 meters, seismic resistance up to 8 degrees. Frame cranes produced by "BMP" own the following modifications: general-purpose, clamshell, magnetic, mag-grab and container.

**C.M. Surface Treatment S.P.A. (Italy)**

Recognized leader in the engineering and construction of automatic centrifugal wheel type blast cleaning and shot peening machines for surface treatment operations. C.M. equipment is utilized throughout industry for a tremendous variety of applications.

**CCS Services SA (Switzerland)**

Laboratory and portable spectrometers for alloy analysis:

- Niton portable XRF alloy analyzers
- Hand-held spark OE-spectrometers Minisort
- Laboratory desktop and mobile optical emission spectrometers Metalscan

for instant alloy chemical analysis, grade verification, PMI, QC, sorting of scrap materials.

AA, ICP and ICP-MS spectrometers, microwave sample preparation systems, vacuum equipment, etc.

**CentrInform, publishing house (Kharkov)**

"Equipment and Tool for Professionals" is an international information-technical journal for professionals and about professionals, which has been published since 2000. It has full colours with more than 120 pages of A4 sheet size. The journal is issued six times a year. The main headings are: "Modern Technologies", "Machines", "Tool", "Materials", "Parts", "Coatings", "Control and Diagnostics".

**Chasov-Yar Refractory Works, JSC (Chasov Yar, Donetsk region)**

JSC "Chasov-Yar Refractory Work" was founded upon the deposit of refractory clays and moulding sands.

Recently the Work is the one of the greatest refractory enterprises in Ukraine, which produces the output for metallurgical, chemical, ceramic, glass, food, building and other industries.

**Chermet, PP (Chernigov)**

Wholesale and retail trade in rolled metal. Production of metal structures (for decorative, industrial, and construction purposes).

Decorative forging. Turned and milling works. Heat and sound insulation.

**Chervonograd Metalware Works (Chervonograd, Lvov Region)**

Chervonograd metal construction plant situated in Lvov region offers services on metal construction designing and manufacturing of the following: farms, pillars, girth rails, beams, latticed decking and stairs and so on.

**Colmar SPA (Italy)**

Colmar Spa is a worldwide leader producer of industrial loaders, balers, shears and shear-balers, which are used for metal scrap handling and processing, recycling & waste management and wood handling. Loaders range also includes railroad loaders and accessories for and maintenance of railroads.

Colmar Spa head quarter is based in Italy (Veneto Region). The Group incorporates Colmar USA Inc., Colmar Uk Ltd, Colmar Vostok ( Russia ) branch companies.

**Comex, LLC (Dnepropetrovsk)**

Comex LLC is one of the three leading metal trading companies on the domestic market of Ukraine, operates in metal-roll and tubes trade from the central stock situated in Dnepropetrovsk, and coordinates activity of the "Comex" metal centres chain in Kiev, Simferopol, Lutsk, Lvov, Kharkov, Luhansk, and Odessa. Availability of the different range of products more than 500 articles and total everyday store of metal-roll and tubes on the stocks in more than 15,000 tons enable to satisfy consumers' needs in different regions of Ukraine. Metal centers are characterized by huge admission capacity and technical perfection.

**Corus Ukraine, LLC (Kiev)**

Corus Ukraine, LLC was founded in 2006 within one of the biggest metal producers in the world – Corus, UK. Main Corus, UK production centres are located in England, Netherlands, Germany, Belgium, France, Norway and the USA.

**Concorde Capital company (Kiev)****Crossharbour Capital Ltd (United Kingdom)****DEMAG - Cranes and Components GmbH (Germany)**

Demag Cranes and Components GmbH produces, develops, supplies, modernizes, installs, and maintains the following types of equipment:

- metallurgical and technological cranes
- bridge and overhead cranes
- bracket cranes, catheads
- all-round crane of KVK construction
- cantilever cranes with crane pillar on the column
- chain and cable telfers
- removable cargo lifting device
- different control consoles
- cargo lifting and general application electric motors
- reducers, motor-reducers
- current contact jaw systems
- frequency changers

**Derzhzovnishinform, NRIC (Kiev)**

Derzhzovnishinform (DZI) is the leading Ukraine 's research and expert center in the field of foreign trade. Research of commodity markets is the key profile of DZI. DZI continuously monitors metal – mining, agricultural products and chemicals; raw stock (oil, coal, and products); light industry products. Wide range of ready – made information products. Professional marketing surveys.

**Diamet, LTD (Kiev)**

DIAMET LTD was founded in 1999. The main direction of activities is wholesale and retail trade of rolled metal. High quality of rolled metal, reasonable prices, flexible discount system enabled the company to gain considerable authority among the consumers of our metal.

Metal centres of the company own a wide range of rolled metal, which numerates more than 100 denominations. We offer armature, beams, tubes, channel bars, rolled wire, corners, sheets, squares, strips and other.

Besides, DIAMET offers range of services: cutting of rolled metal into necessary billets; reel of rolled wire in sticks of necessary length; shipment and delivery upon the customer's address.

**Dimet-M, LTD (Russia)**

Manufacture and repair:

- lifting electromagnets in cast cases;
  - iron separators pendant and self-loading;
  - grab for scrap metal and loose materials;
  - control systems of electromagnets and iron separators;
  - UPS for lifting electromagnets;
  - generating power supply systems for excavators;
  - traverses for a suspension bracket of electromagnets, including on excavators;
- Delivery of cranes and spare parts to the load-lifting equipment.

**DJO, Ukrainian representative of OC «Ural foil»**

"DJO" SPE is the representative of OC «Ural foil» on territory of Ukraine. Carries out wholesale deliveries of aluminium foil and ribbon for machinery, food industry, building and for making commodities for economic purpose.

**Dneprotechservice Scientific Production Group (Dnepropetrovsk)**

"Dneprotechservice" SPG – a group of machine-building enterprises in Ukraine . The managing company – "Dneprotechservice" SPF Ltd is an associated member of the Association of metal traders of Ukraine .

Production block of the group includes:

"Dneprot'yazhmash" OJSC:

- bronze artistic casting;
- casting cast-iron (shaped casting by weight 0.5 kg – 12 tons);
- casting steel;
- blacksmith bullions steel;
- forged pieces with diameter up to 600mms;

" Dnepropetrovsk plant of precise casting" OJSC: cast iron casting, steels, colour and special alloy by mass 0.5 – 200 kg.

**Dok, LTD (Donetsk)****Donetsk National Technical University of Ukraine (Donetsk)****Donetsk State Scientific Research Institute Of Non-Ferrous Metals (Donetsk)**

Research, development of technologies and equipment for non-ferrous and precious metal scrap and wastes production.

**DonetskStal - Iron and Steel Works, CJSC (Donetsk)**

We manufacture:

- Cast and converted pig iron;
- Over 100 carbon structural, low-alloyed, ordinary alloyed, quality and high quality steel grades;
- Plates including those applied in the shipbuilding industry;
- Over 290 specialty bars and structural shapes;
- Church bells produced of non-ferrous high quality alloy;
- Steel electrowelded straight seamed tubes and metal furniture frames.

OJSC "Donetsk Iron and Steel Works" is acknowledged by such Independent Centers as: English and German Lloyd's Registers, Russian Maritime Registers of Shipping, French and Norwegian Bureau Veritas as manufacture of shipbuilding steel and rolled products.

**DONMET, Autogenous Welding Equipment Plant (Kramatorsk)**

Autogenous equipment plant "DONMET" founded in 1990 is the biggest enterprise in Ukraine that designs and produces certificated oxy-gas equipment for cutting and welding metal.

During the years of its existence tens of specimens of various products have been developed and patented by the workers of the plant, later on these products became serial (among them oxygen, gas, carbonic acid, foodstuff pressure regulators, hand torches, machine, special cutters, oxy-kerosene cutters of new generation, various welding torches, gas-air torches for roofing, oxygen flux cutting plants that are used in cutting pig iron and high-chromium steel qualities, and so on).

The products of "DONMET" plant are successfully used at many enterprises, mines and integrated works in Ukraine, in the countries of the Baltic Sea region and UIS.

Plant "DONMET" means 70 types of products, 40 regional partners in 8 countries.

#### **Ecology Alliance, LTD (Kharkov)**

On the site "Мир отходов" (World of Wastes) <<http://www.waste.com.ua>> you can place and find information on demand and supply concerning: the secondary raw materials; technologies and equipment for recycling and neutralization of wastes; services, work in the waste management sphere. There are also announcements on the events, editions relative to the waste problems; Ukrainian legislation on wastes; reports and authors' data of the annual international conference «Cooperation for Waste Issues». The project is implemented along with NGO "EcoInform".

#### **EkotermoProm, LLC (Kiev)**

Production and sale of fibrorefractory materials, carton boards. Limit operation temperature is 1400 °C. Ferrous and non-ferrous metallurgy, machine-industry, chemical, ceramic, glass-industry, chemical, ceramic and glass industries are the biggest fields for use of ceramic fibres. The enterprise elaborates, produces and sales all types of thermals furna and implements furnace lining.

#### **ElectroMash, Scientific and Research CSC (Moldova)**

#### **Elvas Trade House, LLC (Dnepropetrovsk)**

Metal-roll trade: sheet metal, zincd metal-roll, metalroll with polymeric coating.

#### **EnergomashSpetsStal, OJSC (Kramatorsk, Donetsk region)**

JSC "EnergomashSpetsStal" is a modern enterprise renovating and restoring the capacities, steadily increasing the output of high-quality products corresponding to international standard requirements. The enterprise is specialized in production of special cast and forged products for individual and small-series orders for heavy, power and transport engineering, steelmaking, cement, mineral mining and other branches of industry of Ukraine, CIS and foreign countries.

Countries consuming JSC "EnergomashSpetsStal" products Ukraine, Russia, Great Britain, Italy, CIS countries, USA, Germany, Poland, Thailand, Hungary, Turkey, the Dominical Republic, Bulgaria.

#### **Environmental Association of Mining and Metal Enterprises of Ukraine (Dnepropetrovsk)**

#### **Equipment and metals for business, magazine (Kiev)**

#### **Ernst & Young, LLC (Kiev)**

Ernst & Young is a member of a global professional services firm with more than 107,000 specialists, delivering integrated services from in 140 countries. Ernst & Young in Ukraine combines the knowledge and experience of our staff based in Ukraine with the experience of other parts of our firm elsewhere in the world. In 1991 Ernst & Young was the first professional services firm to establish operations in Kyiv. Now Ernst & Young in Ukraine employs about 300 professionals providing high quality services to a number of world famous multinational corporations and influential Ukrainian enterprises.

In Ukraine, Ernst & Young provides a wide range of services. They include:

- Assurance & Advisory Business Services
- Tax Services
- Transaction Advisory Services

#### **Etalon Trading House, LLC (Kiev)**

#### **Eurasian Metals, international industrial magazine (Russia)**

The magazine regularly covers not only actual questions of all complex of ferrous, non-ferrous and precious metals, but also lifts problems of branch, regions, economy and industrial development of Russia.

#### **Expert Ukraine, Ukrainian business magazine (Kiev)**

Informational group "Expert Ukraine" carries out projects: weekly business magazine "Expert Ukraine", Rating centre, project "Expert-Innovations", Natioanal Committee, "Expert-Regions" project and others.

#### **Fortex LTD (Kiev)**

Fortex LLC has been representing its electric instrument on the Ukrainian market for 5 years. You can always purchase high-quality stainless steel electric instrument of the leading world producers - the quality has already been estimated by consumers.

Flat stainless rolled metal of all types, dimensions and different steel grades.

Rolled-metal processing:

- cold-rolled
- hot-rolled
- polished
- reflecting
- decorative
- profiled stainless iron
- stainless tube  
(State Standard-9940, State Standard-9941, DIN 17455, DIN 17457 (EN 10217-7), DIN 11850).
- locking and regulating armature and fittings for food industry

#### **Gas Institute under the National Academy of Sciences of Ukraine (Kiev)**

##### **Giesserei-Verlag GmbH (Germany)**

CP+T International is an international technical journal in the English language published four times a year. It covers all casting technology aspects in the iron and steel casting as well as non-ferrous casting, including die casting. The main focus is on practice-related articles from the plant engineering, supply and foundry industries dealing with engineering and process technology topics.

##### **Grasa, LTD (Kiev)**

GRASA, Ltd is specialized in complete laboratory supply of every direction: industrial, analytical, controlling, diagnostic, scientific etc.

Grasa has exclusivity authorization from the wide range of world leading producers in the laboratories fields due to the professional service and consulting support:

- EKF-Diagnostic
- Fisher Scientific
- Eppendorf AG
- Nikon

Company has the real unique equipments in the own products portfolio, which have no analogs in the world.

GRASA is one of the several Ukrainian suppliers, who is participating in the greatest international projects, including World Bank support.

##### **GTT Commodities (Kiev)**

GTT Commodities Ukraine is a trading company specializing in raw materials (iron ore pellets and concentrate, pig iron, HBI, DRI), semi finished steel products (billets, slabs) and long and flat rolled steel products (rebars, wire rods, HR and CR coils/sheets). We source the materials from leading Ukrainian and Russian mills for our clients in Middle East (Kuwait, Turkey, Saudi Arabia, Iran, Sudan, UAE, Libya, and others), Europe (Italy, Bulgaria, Poland, Czech Republic, Greece). GTT Commodities policy is to facilitate business between the producing plants and the end users. Through strategic partnerships GTT is maximizing competitive advantages and develops a network of producers, distributors and end users.

##### **Heraeus Electro-Nite Ukraine, LLC (Zaporozhye)**

##### **Hetran Inc. (USA)**

Hetran Inc., USA in business for over 35 years and known world wide for quality build machinery and reliable service, now offers a "new generation" of advanced technology machines for bar to bar, coil to coil and coil to bar production requirements. Hetran's complete service capability makes it the single source for all ferrous and non-ferrous finishing requirements. With total engineering and manufacturing ability Hetran Inc. provides superior finishing requirements from design to set-up.

##### **IBCS, International business communication systems, LLC (Kiev)**

##### **Ikar Plus (Zaporozhye)**

Universal trade centre deals in wholesale and retail trade of profiled, shaped and sheet rolled metal, tube and wire products. We conduct the following operations with metal: mechanical processing, rod in dimension, welding. We offer transport and expedition maintenance in the city and Ukraine .

##### **Ilyich Iron & Steel Works of Mariupol, OJSC (Mariupol, Donetsk region)**

The Works produces the following production: hot-rolled steel in plats and coils, hot-rolled plates with patterns, cold-rolled steel in sheets and coils, galvanized cold-rolled steel, galvanized profiled steel, band from ferrous and galvanized steel, seamless hot-rolled pipes, electrowelded pipes, flakes for compressed gases, slag domain, granulated slag, ferroalloys, monocrystalline silicon ingots, electrodes, and solar power generators. The metal products are used in shipbuilding, pipe manufacturing, in manufacturing of high-pressure boilers, in construction of bridges, cranes and for all kinds of constructions and structures, for hardware production. The system of quality guarantee is certified on the basis of international standard ISO 9001:2000 by TUV-Nord center.

**Ilyichevsk Commercial Sea Port (Ilyichevsk, Odessa region)**

Ilyichevsk commercial seaport is the unique and leading Black Sea port, which offers its clients:

- transshipment of more than 28 mn tons of various cargo each year;
- servicing of miscellaneous transportation means, in particular vessels with immersion up to 13 g;
- high intensity of processing of rolled metal, containers, bulk cargo;
- reliable partnership and proper quality of services.

**Iman Pack SPA (Italy)**

Iman Pack Spa (Italy) produces equipment for packaging and wrapping of nails, anchoring, electrodes, bearings; details counting out and packaging of sets for furniture assembling.

**Importers and Exporters of Ukraine, project (Kiev)**

Editing and production of printed and electronic materials about economy and foreign trade.

Main products are "Importers and Exporters of Ukraine", "Doing business in Ukraine ", "Modern economic potential of Ukraine ", and "Natural resources of Ukraine ".

**Index Private Company (Kiev)****Industrial and Metalware Union (Odessa)**

Industrial-Hardware Union, LLC is the representative of the leading hardware companies: Silur, OJSC, Khartzyzsk and Stalkanat OJSC. Odessa

Quality system is certified according to ISO 9001:2000 standart requirements.

Main sorts of production: steel ropes, steel wire with low content of carbon, steel stabilized armature ropes, metal welding net, steel fiber, metalcord.

**Industrial Union of Donbass, corporation (Donetsk)**

Industrial Union of Donbass (ISD) is the holding composing of more than 40 industrial companies in Ukraine and other countries.

Key business: production of steel, tubes, coke, equipment for ferrous metallurgy and coke industry.

Other business areas: energy, heavy machine building, construction, telecommunications, recreation business, and agricultural sector.

The Corporation is also a large trader on the market of steel and related products, such as coal, coke, and natural gas.

**Infomine Research Group (Russia)****Infor-Metal, LLC (Kiev)**

Infor-Metal is the limited liability company, which provides consulting ervices on mining and metal market and organizes the Metal-Forum of Ukraine – annual professional meeting of metal producers, operators of related industries, metal traders, and metal consumers.

**InJurPolis (Kiev)****INPROM, OJSC (Russia)****Institute for Economical Forecasting under the National Academy of Sciences of Ukraine (Kiev)****Institute for Ferrous Metallurgy under the National Academy of Sciences of Ukraine (Dnepropetrovsk)****Institute of Geological Sciences at the National Academy of Sciences of Ukraine (Kiev)****International Chamber of Commerce Ukraine (Kiev)****International Law Firm (USA)****Irestal, LLC (Kharkov)**

Stainless rolled metal sales. Service centre. Stainless tube production.

**Iron and Steel Statistics Bureau (United Kingdom)****ISTIL, Mini Steel Mill, CJSC (Donetsk)**

Mini Steel Mill ISTIL ( Ukraine ), CJSC combines modern steel melting and reducing facilities allowing to produce competitive products in compliance with DIN. ASTM. BS. EN. The quality control system is certified by "TUV NORD" in compliance with EN ISO 9001 : 2000.

State of the art / environmental friendly EAF & specialty bar rolling mills:

Product Assortment Mini Steel Mill ISTIL ( Ukraine ), CJSC:

- Hot-rolled round bars (with peeling/ turning, if required)

Diameter: 80- 275 mm, Length: 1500- 6000 mm;

- Cast square billets:

100x100 mm, 120x120 mm, 125x125 mm, 130x130 mm, 150x150 mm, Length: 6000- 12000 mm;

- Cast round billets:

Diameter: 120 mm, 150 mm, 180 mm, Length: 6000- 12000 mm.

Grade Assortment:

Structural carbon and alloyed, boiler, bearing, tool, spring steel & stainless steel grades.

We invite all to a mutually profitable cooperation. You will always find high quality products and friendly atmosphere here.

#### **Ital Partner Group, LTD (Dnepropetrovsk)**

Ital Partner Group LTD is an official distributor of Marcegaglia concern (Italy) and makes supplies and sale of stainless steel production of different surfaces and steel grade of the world leading producers (roll, strip, sheet, piping accessories, profiled iron, integrated products and also galvanized roll, constructional and thick-walled tubes from carbon steel) from metal bases on the territory of Ukraine and by request.

#### **Jasper GmbH (Germany)**

High-temperature burner systems, in combination with regenerative heat exchangers too. High efficiency, minimal formation of nitrogen below 350 mg/Nm<sup>3</sup> (German TA-Luft Standard). Output from 200 kW up to 20 MW. Automatic control system with monitoring and control of the installed burner system and the waste gas treatment. Industrial furnaces for melting- and casting-lines, burners for heat-treatment of metal products. Retro-Fitting of production plants as a turnkey job. Thermal Post Combustion for environmental protection.

#### **Kharkovmetal-1, CJSC (Kharkov)**

Close corporation "Kharkovmetal – 1" exists in the market of ferrous metals since 1925. "Kharkovmetal – 1" realizes retail trade and wholesale in metal rolling of the Ukrainian and Russian manufacturers and other metal products in wide assortment. Makes high-quality metalware.

#### **Kharkovmetall-2, CJSC (Kharkov)**

Wholesale-retail trading of metal products from stainless steel and nonferrous metal, aluminium. Metal sheet: cold rolled, galvanized, hot rolled. Fixing products, grid, electrodes, wire, circuits, tube, armature. More than 7000 names of production.

#### **Kirov Non-Ferrous Metal Processing Plant, CJSC (Russia)**

Kirov Non-Ferrous Metal Processing Plant - the enterprise of Ural Mining Metallurgical Company processing holding. Our plant is one of the modern domestic metal-working companies, producing a wide assortment of products: anodes, bus-bars, sheets, strips, tapes, plates, tubes, rods, wires from copper and different alloys - copper, brass, bronze, copper-nickel.

Modern equipment, high-precision testing devices, professional skills and rich experiences of our staff provide perfect quality of produced goods.

#### **Komplektinvest Production Union, LLC (Vinnitsa)**

Komplektinvest Company is the acting member of the Ukrainian Association of Metal Traders. The company's business is selling of rolled metal and construction materials.

#### **Krantechna, UAB (Lithuania)**

KRANTECHNA is a commercial enterprise, which sells and maintains equipment (both used and new) for effective stockpiling and selling of ferrous and nonferrous scrap metals, loading and reloading of primary resources. We are an official representative of TAURUS in Russia, Belarussia, Ukraine, Kazakhstan, and other countries. We offer hydraulic reloading equipment: FUCS and other machines, mounted equipment, balers, TAURUS balers cutters with the capacity of 400 to 1,100 MT, as well as used presses, balers cutters, and shredders. We provide the following services: maintenance (partial or capital), mobile services, disassembling, repairs, preparation works with on-site installation, suppliers of spare parts from the warehouse, and consulting.

#### **Krasnaya Gvardiya, Odessa Machine Building Plant, OJSC (Odessa)**

Casting complex of OJSC Krasnaya Gvardiya produces steel, cast iron, and non-ferrous foundry into oil sand forms and by gasified models.

#### **Kriykov Wagon Building Plant, OJSC (Kremenchug, Poltava region)**

"Kriykov wagon-building plant" OSC „ („KWBP" OSC) is truly considered to be one of the biggest and oldest producers of vehicles, including movable railway rake in Ukraine. „KWBP" OSC is a unique high-tech enterprise with a whole production cycle – from generated commercial and technical idea to the supply of ready-made production.

Nowadays the enterprise assets include: trunk freight and passenger railway wagons, spare parts and

accessories to the railway transport, metropolitan wagons, floor and tunnel escalators, military engineering and autoroad technique, containers for bulk cargo transportation, large-size welding metal constructions, welding electrodes and other.

One of our production peculiarities is the possibility of the fast reset into the manufacturing of new production. A vital example is the quickly mastered industrial manufacturing of national passenger wagons and the right to become a basic enterprise for their production.

Based upon the mentioned, we invite You to the mutually beneficial cooperation –undoubtedly profitable.

#### **L.I.T.A.T. Group of Companies (Dnepropetrovsk)**

LITAT Group of companies is a specialist in exporting steel to the Middle East and South Africa. The core competence is in billets, slabs, debars, wire rods, HRC/CRC, pipes and plates.

We offer a complete package of forwarding, brokerage, shipping, port services.

#### **LAP Laser Applikationen GmbH (Germany)**

LAP GmbH Laser Applikationen has been producing non-contact laser measurements for use in the steel industry since 1984.

LAP supplies non-contact systems for the measurement of dimensions such as position, width, thickness, length, diameter or flatness of long and flat products in the steel industry.

#### **Leda Group LTD (Kiev)**

Leda Group is specialising on business travel to Europe and South-Eastern Asia. This includes participation and visiting specialized and trade exhibitions, conferences and symposiums both in Ukraine and abroad. The main activity of the company is the development and introduction of different MICE products of any complicity in any country of the world.

#### **Legon Private Company (Donetsk)**

#### **Leman-Ukraine LTD (Donetsk)**

#### **Linia Stali, LTD (Kiev)**

Decorative metal smithery, production of metal articles of various complexity, internal and external decorations.

#### **Lomakin V.M., steel melting engineer, honored metallurgist (Mariupol, Donetsk region)**

Mlti-stage convertor by Lomakin V.M. smelts steel with no usage and finding of standard energy resources outside: natural gas, mazut, technical oxygen, electricity (because new horizontal convertors generate it by themselves).

Registered in 7 countries ( USA , China , India and others), the invention is the basic innovation for the whole metallurgical industry and can tackle three main problems facing the industry: - environment protection and greenhouse effect solving; - energy resources savingn; - manbfacturing of competitive metallurgical production.

#### **Made in Ukraine, magazine (Dnepropetrovsk region)**

Magazine "Made in Ukraine " – an All-Ukrainian periodical – is a "business card" of a domestic manufacturer. We publish articles about domestic enterprises and their product as well as highlight technological achievements and original designs. Our goal is creation of a positive image of Ukrainian manufacturers and providing all the information about competitive technologies, goods and services of Ukrainian enterprises.

#### **Magister & Partners, law company (Kiev)**

#### **Magnitotherapy "Energetics" (Kiev)**

Magnitotherapy in decorations: bracelets, necklaces, ear-rings and so on.

18-carat covering, jewellery rhodium, Svarovskiyi strazy (Austria). Made in Germany.

#### **Mayerton Refractories Ltd (United Kingdom), Representative office (Dnepropetrovsk)**

The Mayerton company is one of the top-level producer and supplier of refractories materials for metallurgical industry. All materials produced by our Chinese plants. Our staff is a team of creative and eminently qualified specialists who works for you from 1995 in the worldwide market with the following biggest metallurgical plants: Voest Alpine Stahl Linz (Austria), Sidmar (Belgium), Ivaco (Canada), Anshan и Benxi Iron & Steel Co (China), North Star and Nucor (USA), Severstal, MMK, NTMK, OEMK, and ZSMK (Russia), Azovstal, ISTIL and DMZ named after Petrovskiy (Ukraine).

#### **MD Group, LLC (Kiev)**

MD Group (Metal Distribution Group) is a progressive company meeting all criteria of a modern metal-servicing center.

"City of Metal " - such is our motto embodied in concrete deeds:

- offering wide assortment of metal products;

- fair prices;
- prompt shipment;
- convenient scheme of an intersection;
- availability of necessary metal-processing equipment;
- cutting metal into blanks;
- timely formation of large and non-standard orders;
- manufacturing metal structures of any complexity;
- delivery of ordered products with own and railway transport;
- export supplies;
- operational support of production and construction projects.

Our credo is "Work with full devotion" - which ultimately contributes to satisfying all client's needs.

#### **Media Star, publishing house, LLC (Kiev)**

##### **MediaPriceCentre, Limited Company (Kiev)**

"Equipment and metals for business" is the real-time source of specialized information.

The new all-Ukrainian weekly catalogue of goods and prices containing the fullest information on representatives of the leading sectors of industrial market of Ukraine .

##### **Megatex, LLC (Konstantinovka, Donetsk region)**

Production of soft (C1, C2), lead-antimony alloys (CCyA, CCyASe, CCyASn); lead-tin alloys (Б16, Б83, Б88, БК2, БК2Ш, БКА); solders (ПОС, ПОСК, ПОССу, «А»); muffles for power cables up to 10 kW, type CC 90-110. Purchasing: lead scrap, babbits, solders, used car batteries.

Recycling and utilizing of used batteries.

The quality system ISO 9001:2000 is in operation on the enterprise

The products are awarded with the Ukrainian quality insignia "Highest Quality"

#### **Metal Bulletin. Ukraine (Kiev)**

##### **Metal Courier, information agency (Dnepropetrovsk)**

Metal Courier information agency provides news, prices, statistics and analytic information on markets of steel, metals, raw materials, chemicals and industrial transportations in Russian and in English in forms of printed and on-line editions and single-client special services as well. The main Metal Courier's titles are Metal Courier weekly, Metal Expert monthly serials (Flat products, Long products, Raw materials, Ferroalloys, China market, Him Courier and Industrial Cargoes bi-monthly etc.

##### **Metal, magazine (Kiev)**

«Metal» - Ukrainian business monthly magazine for participants of metal market. Magazine «Metal» is the Main information partner of the largest Ukrainian annual specialized exhibition «METAL-FORUM of Ukraine ». «Metal» by subscription, at branch event, and by direct mail delivery.

##### **Metallica, PE (Kharkov)**

Publishing house METALICA issues an all-Ukrainian weekly journal "METALL VESTNIK" (circulation 9500-10000 copies). The magazine contains the price information from leaders of Ukrainian metal trade and is distributed free-of-charge among Ukrainian consumers of metal.

##### **Metallist (Makeyevka, Donetsk region)**

CJSC Metallist Production and COmmercial Enterprise is a state-of-art mini-mill specializing in production of round and shaped electrically welded high-quality tubes of small diameter of carbon steel grades.

#### **Metal-Info, magazine (Belarus)**

#### **Metal-Inform, magazine (Dnepropetrovsk)**

##### **Metallurgical Compas. Ukraine - world, magazine (Lvov)**

A monthly news/analytical magazine on the metal market in Ukraine and abroad. Information on the production and export of domestic metal production, price reviews of the most attractive sales markets, company news, corporate information, privatization, legislation.

##### **Metallurgical Processes and Equipment, a scientific-technical and production journal (Donetsk)**

"Metallurgical processes and equipment " is the specialized journal illuminating questions of designing and manufacture of the modern high-efficiency and safe equipment for a mountain - metallurgical complex, the organization of manufacture and management of funds, reconstruction and modernizations of the operative equipment, the organization and work on service, diagnosing, repair and restoration of the equipment with application of modern technologies and materials.

**Metallurgprom, Association of Enterprises (Dnepropetrovsk)**

Providing of coordination of mining and metallurgical enterprises activities which belong to the sphere of the Ministry of Industrial Policy of Ukraine administration and their associations as well; participation in working out of production balances for ensuring of raw materials, material and power resources; coordination of functioning in working out of programs of mining and metallurgical enterprises development; assistance in the solution of issues on investment and scientific and technical activity; informational, consultative and reference services to the enterprises – members of association.

**Metals & prices, magazine (Russia)****Metiz (Metalware), magazine (Dnepropetrovsk)**

The conception of our magazine is the creation of a specialized magazine on hardware industry of CIS, and become the best information services provider in the market of wire products. Under "hardware" we mean the products of rod, cable, electrode, cord, chain, wire netting, fastener, nails, steel-robe and wire.

**Metso Lindemann GmbH (Germany), Representative office in Russia**

Metso Lindemann GmbH is a world leader in production of scrap processing equipment. The company was established in 1920 and its workshops are located in Dusseldorf ( Germany ). The company counts about 400 high class employees. More than 1500 hydraulic scrap shears, few hundred of metal scrap baling presses and the most part of about 750 shredder plants all over the world were produced by Lindemann which is now a part of Metso Minerals group. Metso Lindemann GmbH manufactures also turnings crushers, briquetting presses, metal crushers and non-ferrous separators.

Lindemann machines are famous for their high reliability, productivity and economy.

**Millenium Capital, LTD (Kiev)**

Millennium Capital is a rapidly growing Ukrainian investment bank. The company was established in 2000 and previously was called MFK. We provide a wide range of services including: corporate finance advisory, institutional stock broking, research, and custody services. The experience and educational background, business reputation and entrepreneurial spirit of Millennium Capital professionals allow us to offer our clients the best financial solutions and to occupy a leading position in the Ukrainian financial market.

**Ministry of Industrial Policy of Ukraine (Kiev)****Mitsui & Co., LTD (Japan), Representative office (Kiev)**

Main activities: metallurgical group industry, metallurgical production, raw materials for metallurgical industry, non-ferrous metals, machine-building group; electronic and informational services, chemical industry group, power industry group, consumer goods and services group.

Main activities in Ukraine : metallurgical industry, machine-building, chemical industry, consumer goods and services group, ecological projects, within Kioto protocol: working out and participation in the projects "joint implementation – JI, long-term lends for projects under the Japanese Government ODA (Official Development Assistance) program.

**MITTAL STEEL Kryviy Rih, OJSC (Kryvyi Rih, Dnepropetrovsk region)**

Open Joint-Stock Company "Mittal Steel Kryviy Rih" is the biggest enterprise in the mining and beneficiation complex. The company was built in August 1934. It is a unique enterprise by its scale and capacities with complete metallurgical production cycle which includes the following units: Mine Department for Iron Ore Deep Mining, Iron Ore Mining and Benefication Complex, Coke and By-Product Plant, Agroindustrial Complex. Now OJSC "Mittal Steel Kryviy Rih" produces and sells reinforcing bars, steel wire rod, rolled shapes of carbon steel (equal and unequal angles) in domestic and external markets.

**Moldova Steel Works, JSCC (Moldova)**

Being a modern and highly efficient plant in ferrous metallurgy and possessing worldwide recognition for high quality products, JSCC «Moldova Steel Works» produces continuous cast steel billets, light sections, low carbon, high carbon and low alloyed wire rod to CIS standard specifications, as well as to major standard specifications of the world (DIN, ASTM, BS, EU etc.). Our Quality Management System was approved by LRQA ( L'Loyds Register Quality Assurance) to the requirements of ISO 9001-2000.

**Nafta & Gas, LTD (Kiev)****National Metallurgic Academy of Ukraine (Dnepropetrovsk)****National review, LLC (Russia)****National Technical University of Ukraine KPI (Kiev)****Nikopol Plant of Technological Fittings, CJSC (Nikopol, Dnepropetrovsk region)**

**Nikopol Stainless Tube Mill, CJSC (Nikopol, Dnepropetrovsk region)**

The main part of the products of CJSC "Nikopol Stainless Tube Mill" is seamless stainless steel tubes and pipes for usage in conditions of a wide range of corrosion media and temperatures, mainly in chemical and petrochemical industry, nuclear and thermal industry, nonferrous metallurgy, engineering industry and shipbuilding, food industry and others.

At present the Mill manufactures stainless steel tubes and pipes according to 60 domestic and international standards including GOST 9940-81, GOST 9941-81, TU 14-3-197-89, TU 14-3-318-75, TU 14-3-460-75, TU 14-3-796-79, ASTM A-213, ASTM A-269, ASTM A-312, ASTM A-789, DIN 17456-85, DIN 17458-85.

**Odessa Commercial Sea Port, SE (Odessa)**

SE "Odessa commercial sea port" is one of the largest ports of the Black Sea-Azov range.

Technical facilities of the port allow to process more than 14 million tons of dry cargoes and 24 million tons of oil products annually. Developed infrastructure allows delivering cargo by auto, railway, marine and river transport. Specialized terminals of the port with large park of handling equipment and hauling devices allow handling wide range of cargoes.

Besides the main activity (handling and storing of cargoes), Odessa port provides full complex of high level additional services, such as marine passenger station services, stuffing and unstuffing containers and many others.

**OIKI ACCIAI Inossidabili S.p.A. (Italy), Representative office**

Company "Oiki Acciai" is service-centre dealing with production of stainless flat material and distribution of stainless steel.

We always have available from stock coil material and plates of standard sizes

Of steel grades 304, 321, 316Ti/L, 430, 309S, 310S

Width 1000, 1250, 1500, 2000mm,

Thickness from 0,5mm to 13mm,

Also "quarto" plates of thickness 13mm and more are available.

At order we can produce plates of any length within 13.000mm.

Surface grinding and protecting by film can be done.

We are glad to offer you production and complete setting of the most sophisticated orders.

**ONVI (Zhytomir)**

The main direction of the company activities is granular magnesium alloy production.

The company also specializes in ferronickelchrome and ferrotitanium production, which are sold on the territory of Ukraine and also exported upon external contracts.

**Oschatz & Kuettner Ukraine (Germany)**

Oschatz GmbH, Essen and Küttner GmbH, Essen, have established a joint representation office in Donetsk in the area of metallurgical engineering.

Long lasting activities in the area of metallurgy connect both of our traditional companies. We have resumed the product range of our companies as follows:

Non-ferrous metallurgical industry

Iron and steel metallurgy

Environmental technology

Chemical technology

Services

Coking and sinter plants

Blast furnace

Steel mill

Foundry

Rolling mill technology

Automation technology

**P.H.U. Sidor (Poland)**

The company SIDOR, based in Gdynia, Poland, has been trading steel on Polish and international market since 1997. We sell about 10 000 tonnes of metallurgical wares per year. The majority of products is sold to shipyards (Gdańsk Shipyard and Gdynia Shipyard are our main clients), building contractors, and constructional companies. We have an opinion of a stable and reliable business partner as a supplier of metallurgical wares in Northern Poland.

The products we sell most frequently are the following:

- steel channels and beams
- equal/unequal-leg angles
- hot-rolled strips/plates
- flat bars
- cold-rolled pipes and profiles
- HP profiles

**Panteleymonovka Refractory Plant, OJSC (Panteleymonovka, Donetsk region)**

DJSC «Panteleymonovskiy Refractory Plant» one of the biggest enterprises of Ukraine in the production of a

wide range of refractories: periclase, periclase-chromite, periclase-carbonaceous, periclase- alumina-carbonaceous, forsterite, forsterite-chromite, sliding gates for ladle casting system.

Our enterprise is interested in expanding and establishing new business relations with Ukrainian and foreign partners and ready to consider every offer on manufacture and supply of refractories necessary and participation in joint mutually beneficial projects. We're always ready to give all the information you may need.

**Peiner Traeger GmbH (Germany)**

Within the Salzgitter Group, Peiner Traeger GmbH stands for steel and technology, a comprehensive delivery-programme as well as for successful development of steel for special purposes

**Price review of the Ukrainian and world commodity markets (Kiev)**

**Press-Birzha, weekly (Dnepropetrovsk)**

**Prof-Line, LLC (Kiev)**

Prof-Line, LLC is specialized in the complex provision of the Ukrainian industry with lifting equipment. Leading machine-building, metal processing, oil-refining, polygraphic, shipbuilding enterprises of Ukraine and connection companies, and also many other representatives of different Ukrainian industry branches have become our clients for the 8 years of successful work on the lifting equipment market. The main activities of Prof-Line, LLC are supply, assembling and service maintenance of lifting equipment for all industry branches:

- Bridge, portal and console crane with carrying capacity up to 100 tons – standard and individual performance and also accessories.
- Universal module crane-joint and monorail systems.
- Steel ropes for any types of cranes and lifts.
- Synthetic slings with carrying capacity up to 50 tons.
- Mechanical and pneumatic load gripping devices and mechanisms for cargo processing in machine-building, shipbuilding and aircraft construction.
- Mast platforms for materials and cargo lifting.
- Other lifting equipment for cargo lifting and move.
- Accessories for cargo lifting and holding (hook, staple, chains).

**Prommetiz LTD (Dnepropetrovsk)**

**PromTehTeplo, LLC (Slavyansk, Donetsk region)**

Company «PROMTEHTEPLO» from 2002 produces aluminosilicate fibres and products from it. Aluminosilicate fibres combine unique technological characteristics: high temperature stability, low thermal conductivity, light weight, low heat expansion, fire protection, superior chemical resistance, long service life. Continuous high temperature use limit is up to 1150 – 1400 °C.

**Publicity Creating company of strategic communications (Kiev)**

**PUDS Polish Union of Steel Distributors (Poland)**

**Reductor, Scientific and Technic Center (Kiev)**

Production, construction and supply of the wide nomenclature of reducers, motor-reducers, variators, motor-variators-reducers and drives. Sales of electric motors, frequency shifters, lifting mechanisms, compressors, pumps, bearings, driving chains, lubricating oils. Manufacturing and repair of special reducers and drives. Production, construction and supply of the wide nomenclature of manual and electric winches with carrying capacity 0,25-10 t.

**Renaissance Trade House, LLC (Alexandria, Kirovograd region)**

RENAISSANCE LLC offers services of producing goods of plate metal, non-standard metal structures by drawings or samples of customer, metal cabinets for clothes, trade and warehouse rack, street litter bins, bodies for various equipment and devices, perforated sheets for design and interior, profiles of various section. Forged decorative articles: furniture, interior articles, facades, etc.

**Research and Consulting (Deutschland) GmbH (Germany)**

**Resources-Invest, LLC (Kiev)**

Retail trade in rolled metal.

**RIN, LTD (Zaporozhye)**

We produce metal structures, various metal goods, punched sheets, containers for domestic wastes, road fences, grid flooring, break-elongated sheets and etc.

**Rodgar, LTD (Kiev)**

**Rostok-SPARKS LTD, LLC (Kiev)**

Rostok-sparks has a vast experience in production and penetration of automatized administration system on the base of industrial program controllers for various equipment and technological processes.

**RUSMET, Group (Russia)****SavVATS, LLC (Kiev)****Schoeller-Bleckmann Edelstahlrohr AG (Austria)**

Production of seamless stainless tubes.

**Second LTD (Mariupol, Donetsk region)**

Steel band and strip production.

**Severnyi Ore Mining and Processing Works (SevGOK), OJSC (Kryvyi Rih, Dnepropetrovsk region)****Severstal-Metiz, OJSC (Russia)**

The company produces wide range of metal articles: steel wire ropes, wire, nails, steel and welded net, welding materials, fasteners, calibrated steel, chains, steel sections.

**Sidcon, Consulting Company (Kiev)****Slavkeramogneupor Slaviansk Chalk And Lime Plant, JSC (Donetsk region)****Snabzhenets (Supply Agent), weekly (Russia)****Sodruzhestvo Trading House (Dnepropetrovsk)**

Wholesale metal-roll trade.

**Stainless Steel Focus, LTD, journal (United Kingdom)**

The journal for the stainless steel specialist

Stainless Steel Focus is a major source of information for the stainless steel industry. It has a worldwide distribution, and a specialist readership which includes stainless mills, traders, service centres, and users/fabricators, as well as suppliers of raw materials – nickel, chrome and stainless steel scrap. Sister publications include Focus Rostfrei (Germany), Focus Nerez (Czech Republic) and Focus Nierdzewne (Poland).

**Stal (Steel), magazine (Russia)****Stal-Eks (Dnepropetrovsk)**

Realization of metal rolling.

**Standart agency, PC (Kiev)****State Tube Institute NITI named after Osada (Dnepropetrovsk)**

State enterprise Y.Y. Osada Scientific Research Tube Institute (SE SRTI) is the largest scientific center of metallurgical industry in Ukraine and the CIS countries. Its activities spread over the fields of theory, technology and means for making tubes and high pressure cylinders including problems of tube production at all stages from making tube billets to finished product quality control and certification, investigation of economical and marketing issues.

The institute worked out modern ready for penetration energy-saving technologies for tube production. We have qualified personnel and necessary laboratory and test basis for research of new, competitive, ecologically pure technologies for tube production and containers from ferrous and non-ferrous, particularly refractory, metals, titanium and zirconium alloys, and also rust-preventive surface and ways of their marking.

**Steel & Metallurgy, magazine (India)**

Steel & Metallurgy, which is an authentic monthly publication, launched in the year 1998 with the sole objective of catering to the interests of the Steel & Metallurgical industry, both locally and globally. The significant areas covered by the magazine include integrated and secondary producers, continuous casting and rolling mills, re-rolling sector, casting and forging sector, refractory, sponge-iron, pig-iron and scrap. Mining sector including iron-ore, coke and essential raw materials, plant and machinery manufacturers, equipment and consumable suppliers, turn-key and project consultants find a special place in this publication. Coverage also extends to traders and users including all those connected with this industry either directly or indirectly. The major consumers like automotive, white goods and construction sector are given a special coverage. The major customers/subscribers of Steel & Metallurgy includes companies like SAIL, TATA STEEL, RINL,

JINDAL STAINLESS LTD, JINDAL STEEL & POWER LTD, ESSAR STEEL LTD, ISPAT INDUSTRIES LTD. and many more

#### **Steel Business Briefing (United Kingdom)**

##### **Steelex SA (Allied Steel Group) (Switzerland)**

Trading non-ferrous metals, alloys, steel, and related products.

##### **Steellines (Turkey)**

Wholesale of rolled metal and metal processing.

##### **Steelprom, Production & Commerce Enterprise (Dnepropetrovsk)**

Range:

- boiler tubes for high-pressure and low-pressure boilers in accordance with TU 14-3-460-2003 и TU 14-3-190-2004;
- tubes for general applications in accordance with GOST 8734-75, GOST 8732-78, and GOST 9567-75;
- carbon and alloy steel tubes for machine-building, including thick-walled and shaped (square, rectangular, etc), bearing, special etc. tubes.

The mill also produces tubes in accordance with DIN and ASTM Standards, namely:

- alloy-free steel tubes for general applications in accordance with DIN 1629, ASTM A 53;
- high-precision alloy-free steel tubes for general applications in accordance with DIN 1630;
- tubes for boiler plants and pipelines in accordance with DIN 17175; ASTM A 106, ASTM A 179, ASTM A 192;
- seamless steel tubes for general applications for steelworks made to EN 10210-1, EN 10210-2.

##### **Steuler Anlagenbau GmbH & Co. KG (Germany)**

Steuler Equipment Engineering provides system covering complete solutions in the field of surface treatment and wire plating technology including the regeneration.

We support our customers with technologies and service worldwide!

#### **Strategic Consulting Group (SCG) (Kiev)**

##### **STV, PE (Chernigov)**

The enterprise trades ferrous and stainless metal-roll, tubes, metiz, armature, electric equipment, cable and conductor production. We compile metal construction of any complicity.

##### **Supremum, CJSC (Kiev)**

##### **SystemGroup (Kiev)**

##### **Takt, LLC (Dnepropetrovsk)**

"Takt" specializes in sales of metal-roll for machine-building (circles, hexahedron, quadrate, leaves) from special or constructive steel grades.

Availability of own metal bases and offices on the territory of Dnepropetrovsk, Donetsk, Melitopol with convenient railway and automobile ways enables to dispatch the metal-roll quickly and draw documents on the spot.

Enterprise is the official representative of ISTIL, mini steel mill, CJSC, "DMZ", CJSC, "Dneprospeztstal", CJSC. Also available is metal-roll of "BMZ", "OEMK", "Krasnyi oktiabr" production.

During the period of activities on the metal market the company won reputation of a reliable partner.

We make up a partnership company open for promotion of any joint projects with our clients.

Reliable partnership is our credo.

##### **Tangar, Industrial And Commercial Firm, LTD (Dnepropetrovsk)**

Workshop "Tangar" is organized as a smithy shop under the leadership of the master of art forging Boris Stavitsky. Our workshop offers you all spectrum of the forged wares. Our wares are of the good quality and they have moderate prices. We produce wares of the art forging to order – fences, gratings, gates, wicket-gates, peaks, sheds, summer-houses, forged sign boards; balcony and staircasy railings; accessories and gratings for the fire-places, forged furniture and other forged elements of the interior.

We can project our wares and work out original sketches of the exclusive forging.

##### **TechEnergoProm, Scientific and Production Company (Dnepropetrovsk)**

Export-import of ferrous metal. Assortment: pig iron, tube billets, hot rolled plates, hot rolled coils, channels, angles, crane rails, mine rails, tram rails, special sections, re-bars, wire rod.

Branches Belgorod, Russia ("Techmetalloprom" LLC), USA(Lemans Industry LLC).

##### **Techmetall, LLC (Lvov)**

**Technologies and Investment Consulting, (TICON), JV (Kiev)****Technopark, LLC (Kiev)**

To make information technologies more available – there was a mission of newly founded in 1994 TechnoPark company. Already 10 years TechnoPark successfully growing on Ukrainian market, developing several branches: PC & Server manufacturing, distribution, corporate & SME sector solutions supplying, service. ISO 9001:2000 certificate on design and manufacturing guarantees high quality and reliability of company's products – PCs and servers of Artline™ and Artpower™ brands.

**ThyssenKrupp Materials Ukraine, LLC (Kiev)**

«ThyssenKrupp Materials Ukraine» was established in 2005 with location in Kiev. Our core business is stock-based distribution of stainless steel products from the warehouses in Kiev and Kharkov. Being a part of ThyssenKrupp ( Germany ) as well as cooperation with the famous stainless steel producers worldwide guarantees high quality of the offered materials. One of the main principals of our activity is individual approach to the customers: we fulfil packaging of the materials, cut to length of the long products at the warehouse and offer flexible discounts for our permanent customers.

Time, LTD (Dnepropetrovsk)

**TML Technik GmbH (Germany)**

TML has its location in Germany . But the scope of application of our products knows no boundaries throughout the world. Everywhere where raw materials are smelted, our debricking machines and special machines are at work. With over 40 years of experience in our corporate group and innovative imagination, we create individual solutions in which tradition and modernity are united. With a quality that one expects from the term "Made in Germany ".

**Trubokomplekt, LTD (Kiev)**

Sale the tubes and metal-roll. Services of metalcenter.

**Trubostal, JSC (Korosten, Zhitomir region)**

Closed joint-stock company "Trubostal" is the perspective enterprise in the field of electrowelded profile steel pipes manufacture.

During its work on the trumpet production market shows itself as the stable and reliable partner. All regions of Ukraine and the CIS countries know about high quality products of Closed joint-stock company "Trubostal".

All products assortment is certificated and made by strict observance of GOST: 8639-82 and 8645-68.

In 2005 was made full modernization of manufacture that has allowed to increase assortment and to improve quality of pipes.

Joint-Stock Company "Trubostal" constantly work on manufacture modernization, improvement of quality and expanding of pipes assortment.

**Trubostal, RPC (Nikopol Dnepropetrovsk region)**

Production of:

- Centrifugally cast tubes with diameter range 135...1060mm, wall thickness range 15...250mm, length up to 6200mm, of any steel and iron grades, machined and heat treated.
- Products made of centrifugally cast tubes: rolls (including high temperature and wear resistant ones), rollers, hollow shafts, columns and guides of presses, mills, manipulators,
- flanges, rings, tires, gear blanks, bushings, bodies of bearings, valves, pumps and hydraulic cylinders, moulds for abrasive materials.
- Bimetallic centrifugally cast tubes of over 30 combinations for pulp feed-lines, bushings for slush pumps, rolls of continuous-casting machines, mining pillars, power installations etc.
- Radiant tubes, high-temperature muffles, tubes, including wear resistant ones for high temperature installations.
- Pillars and columns of heavy-loaded constructions.
- Elbows with diameter range 22-630mm of any steel grades including bimetallic ones (according to GOST, DIN, ASTM).
- Cold-strained seamless tubes.

**UGMK.info, industrial internet portal (Kiev)**

Internet project embracing key industries of ukrainian economy such as mining and smelting complex, mechanical engineering and construction sector. Main modules: business news, up-to-date analytics, market reviews, trade area (metal production), job search, enterprise and firm catalogue.

**UK, LTD (Vishnevoe, Kiev Region)**

Sale the metal-roll and tubes.

**Ukrainian Association of Metal Traders (Kiev)**

The Ukrainian Association of Metal Traders (UAM) is a contractual association open to all professional operators of the metal market. The Association contributes to open and equal access to metal market in

Ukraine and coordinates entrepreneurial activities metal trade. The Association also protects metal traders' rights, represents their interests in government institutions and other organizations, including international ones, and provides advertisement and image support to its members.

UAM is the organizer of seminars, trainings and also annual meeting of metal market operators -producers, traders, workers of the enterprises of allied industries and consumers of metal - "Metal Forum of Ukraine".

**Ukrainian Metal, magazine (Dnepropetrovsk)**

THE UKRAINIAN METAL – daily news of the mining-metallurgical enterprises of CIS.

**Ukrainian Metal Distribution (Kiev region)**

**Ukrainian Metallurgical Company, LLC (Kiev)**

Ukrayinska girnycho-metallurgiyina kompaniya was created in March, 1998. UGMK has been an official representative of the biggest domestic producers of rolled metal for many years. Among them:

ALCHEVSK IRON AND STEEL WORKS

DNEPROVSKY IRON AND STEEL INTEGRATED WORKS aft/ F. DZERZHINSKY

DNEPROPENTROVSK PIPE WORKS

Kramatorsk Iron & Steel Works

Donetsk Steel Rolling Mill.

Ukrayinska girnycho-metallurgiyina kompaniya was established to provide a wide range of customers with necessary assortment of high-quality rolled metal, offering at the same time a wide range of services and the most favorable schemes of payment.

Within the short period of time, the UGMK managed to establish partnership with main companies - consumers of rolled metal in the fields of construction, car-, machine-, ship-building, repair shops of Ukraine and bordering countries.

Today the Ukrayinska girnycho-metallurgiyina kompaniya integrates 30 metal trading depots in 25 cities. In Ukraine , UGMK embraced the leading positions in sales of metal rolling and pipes, with volumes of realization, near 20 % from the general consumption of metal products by a home market and circulation nearby 1 million tons of metal rolling per year. It is an honest mutually beneficial partnership more than 3000 customers. It is an opportunity to resolve problems of any level of complexity, precise infrastructure, timely delivery of products throughout Ukraine .

**Ukrainian Metallurgical Company Odessa, LLC (Odessa)**

**Ukrbudresursy, OJSC (Kiev)**

Main business areas: wholesale trade in rolled metal and industrial equipment, construction materials, and iron and concrete structures.

**Ukrmet (Ukrfer) Ukrainian Association of Ferrous Metallurgy Enterprises**

**UkrMetallurgInform, scientific research institute, OJSC (Dnepropetrovsk)**

Collected articles with essays and annotations; problem topical collections of origins; essay reviews; express information on metallurgy; organization of branch seminars, conferences, presentations and advanced experience exchange meetings. The Company publishes research and production journal "Metallurgical and ore mining industry".

**Ukro Metal S.A., Representative Office (Odessa)**

UKRO METAL S.A. has a wide spectrum of activities, which mainstreams are: Trading of a wide spectrum of metal products such as wire rod in coils, d-bars, hot & cold rolled steel coils, steel pipes, steel squares and angles. UKRO METAL S.A has in the property four-reproduction lines of wire rod with modern technology, and carries out manufacture of high quality metal grids.

Company's own vessels RIO and ODESSA carry out the metal products from Black Sea Ports to Albania .

The head office of the company is located in Vore – Tirana, 24 km from the main port of Albania, Durres.

Our Philosophy since our inception has been to provide optimum value for our customers. We provide high quality products that would be welcomed by professional builders everywhere. We give exceptional customer service from the point of order entry through the point of delivery. We build our work on direct, stable and long-term relations with our partners and customers.

At the year 2005 the imported quantity is about 80 000 MTS. The basic manufacturer of the bought cargo is

JSC "Krivorozhstal" and other plants of Ukraine and Moldova .  
Thanking you in advance for your kind attention.

**UkrOgneUpor (Ukrainian Refractory), LLC (Dnepropetrovsk)**

Ukrogneupor, LTD Company is the only enterprise which carries complex deliveries of the refractory, acid-resistant materials and the fire-resistant thermal isolation of all kinds out.  
We deliver goods to the majority of the metallurgical, machine-building, chemical enterprises, food and energy industries and to the manufacturers of building materials in Ukraine and the CIS.  
All kinds of refractory materials – one supplier, the consulting help at a choice of materials, flexible system of discounts and a delay of payment.

**UkrPromVneshExpertiza, state company (Kiev)**

**UkrSibbank (Kiev)**

Ukrsibbank has been operating since 1990. The bank owns exclusive licence of the National Bank of Ukraine № 75 dated 24.12.2001. It is the fourth biggest bank of Ukraine . 51% of the bank shares belong to BNP Pariba.

**UkrSpetsProkat, LTD (Dnepropetrovsk)**

UkrSpetsProkat, LLC has been selling accurate rolled-metal for more than 10 years on the Ukrainian market. Nowadays the enterprise is the main supplier of "Severstal-Metiz" CSC and " Magnitogorsk metering plant" CSC making up 60% of the accurate rolled-metal import in Ukraine .
